# PURSUIT VEHICLE KITS - MOBILE ONLY OPERATION

Our Pursuit Series Mobile Only system offers a handsfree means of communicating through your mobile radio. This system eliminates the need to reach for the handmic. Simply transmit through the visor mounted microphone using the footswitch and/or optional console PTT button. A console PA button is available as an additional feature. Receive audio remains on the external vehicle speaker. These kits are ideal for use in patrol cars, during high speed pursuits and for unmarked/surveillance vehicles.

Footswitch available

Console PTT/PA option

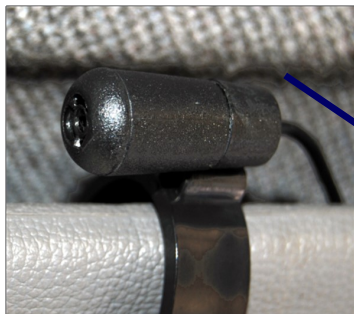

## System includes:

- Visor Microphone with optional mounting clip
- Military grade footswitch and interface module
- Optional console PTT/PA button

Available for: Kenwood NX Series, TK7150/8150, TK7180/8180, Macom/Orion/Harris M7000 Series, Motorola APX Series, CM300/400, Spectra/Astro-Spectra/XTL Series, CDM Series

**\*Contact us for radios not listed**

Visor mic

- Easy-to-conceal mic with optional visor clip (shown) provides clear transmissions
- The quality footswitch provides easy to reach push-to-talk (PTT) access and years of reliable service.
- Convenient console PTT/PA as an optional feature
