

## Operation and Key Features

- Waterproof/ Noise- cancelling headset.
- Premium sound quality at high speeds.
- When the helmet is connected to the shouldermic, the shouldermic is muted and all communications are re-routed into the helmet headset.
- The shouldermic has a 12-pin connection to the headset and does not require a charge \*May depend on radio brand and model.
- While away from the motor, push-to-talk is available at either the radio adapter or at the shouldermic.
- **SIDEKICK** Cell Phone capability available
- Radio and PA push-to-talk available at the handlebars.
- Available for most helmet and motorcycle styles.
- **ALL THIS WITHOUT A TETHER CABLE TO THE MOTOR...**
