PURSUIT- ***-SERIES***

Pursuit Series-Vehicle Kits

**Portable Only Operation
With Remote PA**

“Hands on the wheel, Eyes on the road ”

PURSUIT SERIES VEHICLE KITS - PORTABLE ONLY

Our Pursuit Series Portable Only system offers a Bluetooth handsfree means of communicating over your portable radio. Pair to your patrol module and simply transmit through the visor mounted microphone using the footswitch and/or optional console PTT button. A console PA button is available as an additional feature. This system allows the Officer remote PA abilities by way of a second PTT button at the Bluetooth-enabled Shouldermic. The Officer can now broadcast through the vehicle's public address (PA) system while more safely positioned behind or away from the vehicle (up to 100 meters, line-of-sight). Uses range from tactical positioning in stand-offs and barricades to the everyday directing of traffic from outside the vehicle.

Footswitch available

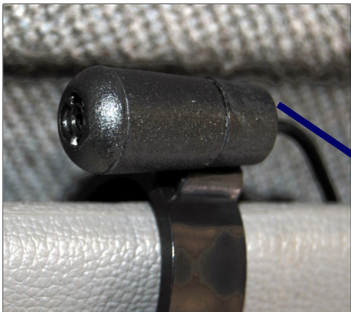

Console PTT/PA option

3.5mm Jack for earpiece

Remote PA PTT

Visor mic

SYSTEM INCLUDES:

Patrol Vehicle Module

- Pair to the module to allow for remote Push-to-Talk and PA capability.

Patrol Speakermic

- From the Speakermic, remotely key the vehicle Public Address (PA) System and broadcast up to 100 meters in range / line-of-sight

Footswitch and/or Center Console PTT/PA

- Key the Portable Radio from a vehicle footswitch (Footswitch Option)
- Key the Portable Radio from a center console Push-To-Talk (PTT) switch (Console PTT Option)
- Key the Public Address (PA) from a center console Push-To-Talk (PTT) switch (Console PTT Option)

*With our Bluetooth patrol mic officers can now safely position themselves behind their car and remotely access their PA system up to 100 meters in range / line of sight.
